

### SUBRECIPIENT REQUEST FOR PROPOSAL (RFP)

The Ohio Department of Health (ODH) is soliciting proposals for professional services.

#### 1. **PROJECT INFORMATION:**

- 1.1. **Project Title:** Bureau of Environmental Health & Radiation Protection (BEHRP) Public Health Lead Safe Housing Program.
- 1.2. **Solicitation Posting Date:** Monday, April 7, 2025.
- 1.3. **Inquiry Start Date:** Monday, April 7, 2025
- 1.4. **Inquiry End Date:** Friday, April 18, 2025, by 3 p.m. All questions must be submitted via email to [Procurement@odh.ohio.gov](mailto:Procurement@odh.ohio.gov) and include "DOH56473 Inquiry" in the subject line. Questions received after this date will not receive a response.
- 1.5. **Solicitation End Date:** Friday, April 25 by 3 p.m. Applications should be submitted and emailed to [Procurement@odh.ohio.gov](mailto:Procurement@odh.ohio.gov) and include "DOH56473 Proposals" in the subject line. Each application component (Technical and Cost Proposals) must be clearly labeled.
- 1.6. **Project Background:** The Governor has proposed funding in State Fiscal Year (SFY) 2026-2027 to continue supporting local communities for lead primary prevention activities. It is anticipated that no more than \$10 million (up to \$5 million in State Fiscal Year 2026, up to \$5 million in FY 2027) will be allocated for the Ohio Lead Safe Housing Fund. With this funding, ODH seeks partners in high-risk communities with the proven capacity to advance childhood lead poisoning prevention efforts at the local level. ODH is seeking proposals that are evidence based, demonstrate successful outcomes, and can be implemented within an organization's existing infrastructure in one to two months. Organizations, agencies, or entities located in high-risk communities as determined in Attachment A shall be considered for this funding opportunity. Proposals deemed ineligible by ODH will not be reviewed.
- 1.7. **Project Objective:** The objective of this project is to reduce lead exposure to children in high-risk communities through primary prevention activities conducted at the local level.
- 1.8. **Project Estimated Budget:** Not to exceed \$10,000,000.00.
- 1.9. **Project Award:** Dependent upon the number of acceptable proposals received.
- 1.10. **Project Period:** 7/1/2025 – 6/30/2027
- 1.11. **Agreement Term:** 7/1/2025 – 6/30/2027
- 1.12. **Renewal Terms:** None

2. **PROJECT REQUIREMENTS:** Offeror(s) must meet the following mandatory requirements to be considered for evaluation.

- Eligible organizations may include State, Local and Indian Tribal Governments, institutions of higher education, non-profit organizations (including faith-based, community-based, and tribal organizations), and hospitals that are located in high-risk communities as determined in Attachment A shall be considered for this funding opportunity.

2.1. **Subrecipient Experience Requirement:**

- 2.1.1. Offeror(s) must demonstrate and document through recent experiences that they have the ability and capacity to provide the required level of service to perform the activities as outlined in their proposal and defined through this RFP.

2.2. **Candidate Expertise Requirement:**

- 2.2.1 Offeror(s) staff must have experience to administer and oversee health and/or housing related programs, non-profit or advocacy programs, or other programs that implement strategies and activities that promote disease prevention. Specific experience in administering lead poisoning prevention programs is preferred.
- 2.2.2. Offeror(s) must be knowledgeable of licenses, certifications and laws required for all job descriptions covered under this contract. For example, lead abatement activities must be performed by Ohio licensed lead abatement contractors and workers.

2.3. **Notice of Award Requirements:** N/A

2.4. **Mandatory Licenses &/or Certifications Required:** Offeror(s) must utilize Ohio licensed lead abatement contractors and workers when conducting lead hazard control activities; certified Renovation Repair and Painting contractors shall conduct renovation, repair and painting activities, if proposed.

3. **SCOPE OF WORK AND DELIVERABLES:**

3.1. **Scope of Work:**

SCOPE OF WORK	
3.1.1	<p>Offeror(s) must ensure the following:</p> <ul style="list-style-type: none"><li>• Designation of a project manager responsible for communicating with the ODH contract manager.</li></ul>

DOH56473

	<ul style="list-style-type: none"><li>Ensuring implementation and administration of Lead-Safe Housing Fund project activities.</li><li>Reporting project progress to ODH.</li></ul>
3.1.2	Offeror(s) will convene monthly conference calls with ODH to provide status regarding project progress.
3.1.3	<p>Offeror(s) must describe in detail, using the form in Attachment C, its work plan, the methods and policies and procedures that will be used to implement a Lead-Safe Housing Fund project in a designated high-risk community or communities.</p> <ul style="list-style-type: none"><li>Must incorporate at least two primary prevention strategies listed in Attachment B and provide a detailed description of how the plan will be implemented.</li><li>Estimated time for startup.</li><li>Staff involved in the project.</li><li>Mechanism for monitoring the project.</li><li>Project measures and outcomes.</li></ul>
3.1.4	Offeror(s) must provide to the ODH contract manager, on a form provided by ODH, an annual FY26 report detailing project progress for each activity included in the work plan.
3.1.5	Offeror(s) must submit a final project report to the ODH contract manager.

3.2. Deliverables and Due Dates:

DELIVERABLES		DUE DATE
3.2.1	Submit final Lead Safe Housing Fund work plan to ODH for review and approval.	30 days after Contract execution
3.2.2	Plan, coordinate, implement and complete lead poisoning primary prevention activities in the subrecipient's approved work plan.	Throughout the Contract Period
3.2.3	<p>Track costs are associated with planning, coordination, implementation and completion of primary prevention activities as proposed in the subrecipient's work plan.</p> <ul style="list-style-type: none"><li>Administrative costs shall be capped at 10% of the total award amount.</li></ul>	Throughout the Contract Period
3.2.4	Submit invoices to ODH for review and approval. Invoices should reflect monthly costs associated with planning, coordination, implementation, and completion of lead primary prevention activities approved in the subrecipient's approved work plan. Invoices shall also include costs associated with the purchase of equipment/supplies needed to initiate work required under this contract.	<p>Monthly (15<sup>th</sup> of every month)</p> <p>Throughout the Contract Period</p>

3.2.5	Submit a final project report using template provided by ODH. Comply with any reporting requirements required by the funding source.	May 31, 2027
-------	--	--------------

**4. TECHNICAL EVALUATION CRITERION:**

CONTRACTOR PROFILE		WEIGHT
4.1	Offeror(s) must have experience administering and overseeing health and/or housing related programs, non-profit or advocacy programs, or other programs that implement strategies and activities that promote disease prevention. <ul style="list-style-type: none"><li>Specific experience in administering lead poisoning prevention programs is preferred.</li></ul>	10
4.2	Offeror(s) must have administrative experience in program management as well as documented knowledge of public health structure, lead poisoning prevention knowledge preferred.	10
4.3	Offeror(s) must be knowledgeable of licenses, certifications and laws required for all Subcontractors under this contract. For example, any lead abatement work shall be conducted by a licensed lead abatement worker and/or contractor; lead testing by a licensed lead risk assessor; and lead safe renovation or rehabilitation conducted by individuals with US EPA's Renovation, Repair and Painting (RRP) certification.	10
4.4	Offeror(s) shall demonstrate the capacity to manage the proposed project through submission of examples of successfully completed projects similar in scope and size. <ul style="list-style-type: none"><li>Examples would include funding closeout reports, final Notices of Awards, references from funding agencies, or data/reports demonstrating the effective completion of a grant project in terms of metrics and spending.</li></ul>	10

STAFFING PLAN (PERSONNEL PROFILE)		WEIGHT
4.5	<p>Offeror(s) must describe, in its Proposal Staffing Plan, the proposed project team and organizational structure, including all key programmatic and financial management staff.</p> <ul style="list-style-type: none"><li>• Include name, title, education, certifications, current responsibilities, and experience of all key staff that will be assigned to this Contract.</li></ul>	20
4.6	<p>Offeror(s) must describe the capacity of each staff member and their ability to perform the work in a timely manner relative to the present workload.</p>	10
4.9	<p>Offeror(s) must designate a project manager who will be responsible for project oversight and communication with ODH.</p> <ul style="list-style-type: none"><li>• Project managers shall have previous program supervisory or management experience.</li></ul>	5

WORK PLAN		WEIGHT
4.10	<p>Offeror(s) work plan should outline a comprehensive implementation strategy, include a project timeline with a 30-day initiation phase, establish a system for project monitoring, and define project metrics and outcomes.</p> <p>Additionally, the plan must include a proposed budget for each fiscal year that aligns funding with the proposed activities.</p>	15
4.10	<p>Offeror(s) workplan must provide evidence based and demonstrate successful outcomes as well as have the capability to implement within an organization's existing infrastructure in one to two months.</p>	10

The Targeted Testing Model used to determine the high risk ZIP Codes was developed by Cincinnati Children's Hospital Medical Center. Five-Year 2020 American Community Survey data, Department of Housing and Urban Development Deteriorated Paint Index, and 2015-2023 blood lead testing data were used to identify high-risk census tracts, which were then overlaid with ZIP code boundaries. Any ZIP code partially/fully containing an identified high-risk census tract is considered to be at high risk. A high-risk census tract was considered to be any census tract in which the predicted or observed elevated blood lead testing rate ( $\geq 3.5\mu\text{g}/\text{dL}$ ) was 6.35% or greater. Eight predictive variables were included in the final model describing: housing environment, socioeconomic factors, demographic characteristics, housing density, and population density.

Homes Program

## **Attachment B**

### **Examples of Primary Prevention Strategies and Activities**

### **Ohio Lead Safe Housing Fund**

This guidance is provided to assist local communities in selecting strategies and activities that build upon the state's current investments in lead hazard control and primary prevention. Applicants are to include one or more primary prevention strategies/activities from one or more of the four objective areas or develop activities that complement existing lead poisoning prevention work in the applicant's area of service.

This document is based on the "*Building Blocks for Primary Prevention; Protecting Children from Lead-Based Paint Hazards*" (found at the following link <https://stacks.cdc.gov/view/cdc/5255>). Applicants are encouraged to utilize the information from the document when developing funding proposals.

#### **EDUCATION AND OUTREACH STRATEGIES/ACTIVITIES**

- Educate the public of potential lead hazards and the availability of lead-free alternatives to prevent lead exposure from occurring.
- Promote the statewide Lead Safe Rental Registry. The Registry is available to serve as a trusted, comprehensive resource for consumers seeking information about lead safe rental housing.
- Build awareness of the federal Renovation, Repair, and Painting (RRP) program, and the requirements of individual and firm certification.
- Educate physicians, health care providers, and other medical providers of the requirement for lead testing children under six years of age for lead exposure, with a priority focus on children living in high-incidence communities and those enrolled in the Medicaid program, as required by state and federal law.
- Publicize activities and outcomes funded by the Lead-Safe Home Fund dollars awarded to the applicant.
- Promote lead safety in child care homes through education and outreach to child care operators.
- Train home visitors to complete a lead visual assessment while in the home. ODH has developed the Environmental Visual Assessment that is designed to be completed by home visitors who are not trained as lead specialists.
- Expand lead safety education to expectant and new parents.
- Require local social service agencies to disseminate lead poisoning prevention education and outreach information to clients.

- Teach code inspectors about lead safety.
- Train and employ low-income community residents in hazard control.
- Train painters, remodelers, and maintenance staff in lead-safe work practices
- Create a “Demonstration Home” to educate policy makers and the public on lead safety.
- Educate tenants and community-based organizations to take action to address substandard housing conditions.
- Promote the Ohio Lead-Safe Housing Registry to local landlords through education and outreach. This is a statewide rental housing registry where renters can search for lead safe rental housing by zip code, city, or county.  
<https://www.ohiohousinglocator.org/LeadSafe.html>
- Educate and inform rental property owners of federal lead hazard disclosure requirements.

#### **DATA COLLECTION AND SHARING STRATEGIES/ACTIVITIES**

- Develop short, intermediate, and long-term goals for lead poisoning reduction, and develop steps toward accomplishing 2022, 2025, and 2028 targets.
- Leverage federal, state, and local data sources to identify the prevalence of lead hazards and poisoning to ensure funding resources are targeted within the applicant’s communities to those most in need.
- Use data from lead investigations to advocate for policy solutions within the high-risk community.

#### **LEAD HAZARD CONTROL AND IDENTIFICATION STRATEGIES/ACTIVITIES**

- Conduct lead stabilization activities, including window, door, and porch replacement.
- Collaborate with the county Department of Jobs and Family Services to ensure lead hazards in child care settings are identified and controlled or eliminated.
- Add Lead Safety (USEPA RRP) to weatherization programs and practices.
- Create incentives to integrate lead safety into housing rehabilitation.
- Incorporate RRP into all covered activities and performing a lead clearance at the conclusion of the work to ensure no lead hazards are present.
- Perform building-wide hazard assessments in multi-unit buildings following identification of lead hazards in one unit.
- Require an inspection for lead-based paint hazards at tenant turnover.
- Adopt local lead hazard disclosure laws.
- Require rental property registration/licensing.

- Offer resources to assist landlords of low-income properties and owner-occupants, including free trainings in lead-safe work practices and/or grants and low- or no-interest loans.
- Require rental property owners to inform tenants how to report deteriorating paint.
- Share risk assessment and lead inspection services. Departments within the same community, or communities within the same geographic area can share in the purchase and use of XRF lead analyzers, laboratory contracts, and staff that are licensed to perform lead risk assessments.

#### **WORKFORCE DEVELOPMENT STRATEGIES/ACTIVITIES**

- Identify opportunities for small to medium-sized contractors to participate in lead hazard reduction activities funded by these funds to broaden and strengthen the local lead hazard control workforce.
- Coordinate, subsidize, and facilitate lead training classes for homeowners and professionals who perform work in their geographic area. These can be USEPA one day RRP training, Lead Abatement worker and Contractor training, one day Lead Clearance Technician classes.

#### **OTHER STRATEGIES/ACTIVITIES**

- Create a special lead court to expedite enforcement of lead related violations.
- Create a special real estate funding mechanism (Funding for local or regional lead poisoning prevention activities can be generated through the addition of a fixed fee to the annual property tax bills for each dwelling unit in pre-1978 residential properties).
- Impose fees on real estate transactions (fee levied on real estate transactions e.g. for the recording of deeds).
- Attach property-specific lead hazard information to property deeds (to ensure that buyers are informed of these lead hazards, copies of lead hazard violations, repair orders, and clearance reports could be attached to the property deed and available for review through the title search).

# Attachment C – Proposed Work Plan and Budget Template

## Lead Safe Housing Fund Proposal

Describe in detail the plan to administer at least one strategy or activity in one of the following primary prevention Objective areas: Education and Outreach, Data Collection and Sharing, Lead Hazard Control and Identification and Workforce Development. Strategies/Activities must be implemented in a high-risk community(ies). Funding request budget must be commensurate to activities proposed.

The proposed plan shall include the methods used to implement a Lead-Safe Housing Fund Project. The plan must outline the program goals and activities to achieve the objective. The plan shall provide a detailed description of how each activity will be implemented, how progress will be monitored, expected outcomes and timeframe for completion.
