# Induced Abortions in Ohio

## Monthly Report

**Includes abortions reported to the Department of Health Sept. 1-30, 2025**  
**Published Oct. 15, 2025**

Ohio law (Ohio Revised Code 3701.79) requires certain information about induced abortions to be reported to the Ohio Department of Health by the physician who performed the abortion, using prescribed forms. The confidential forms include demographic and medical history information about the patient, and information about the medical procedure. Ohio Revised Code 3701.79 also requires the Ohio Department of Health to produce statistical reports about induced abortions occurring in Ohio. The forms are confidential – no identifying information about women who obtain abortions is collected except the medical record number. Abortion statistics are summarized in an annual “Induced Abortions in Ohio” report series. Annual report tables contain statistical information about induced pregnancy terminations at the state, county, and ZIP Code levels.

Monthly Reports are preliminary. Monthly reports are based on the date the event is reported to the Ohio Department of Health and not the date of the patient encounter. All data in the Monthly Reports are subject to change. Only the Annual Report is considered final. Users of the Monthly Reports are cautioned when relying on them to estimate trends or when making projections.
