

Springfield Local Schools

in Lucas County, Ohio

Asthma Support for families and students:

- Revising Jumpstart/Registration procedures
- Updating and maintaining therapy dog policies/procedures
- Ongoing RN and LPN asthma trainings
- Asthma Education resource sharing
- Host community wide asthma screening event

Student Population Ratio to those with Asthma

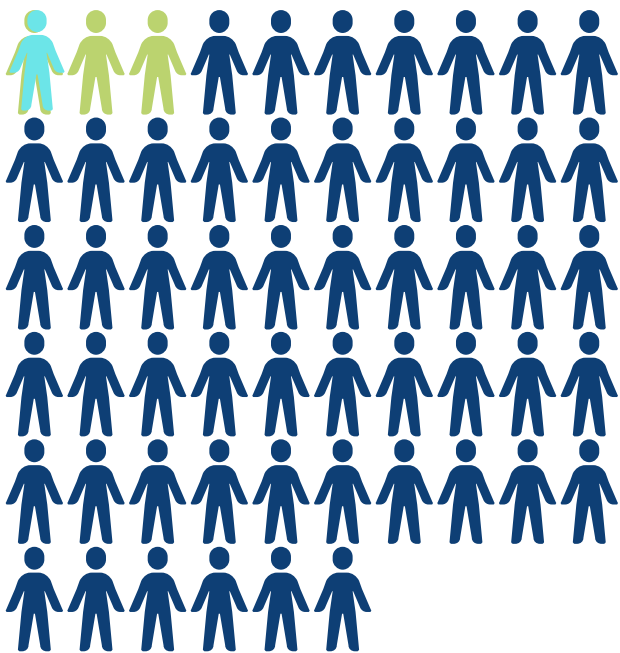

Students = 3747

Students with Asthma = 200

Students with asthma action plan = 75

3 of every 56 students have an asthma diagnosis.

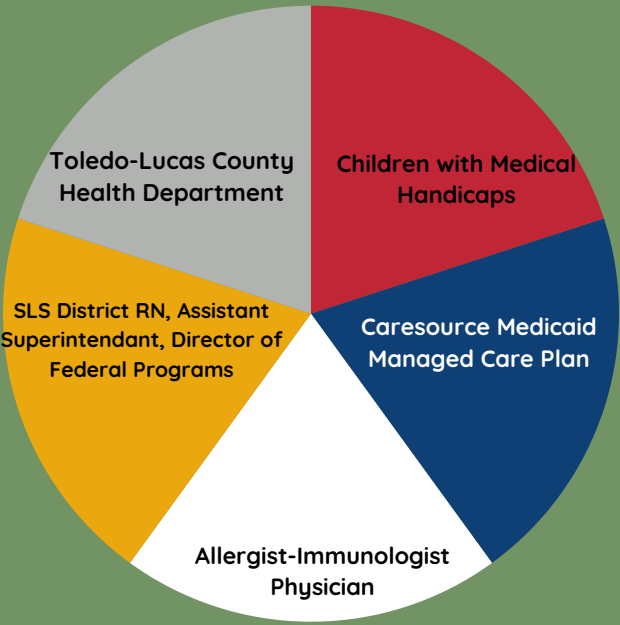

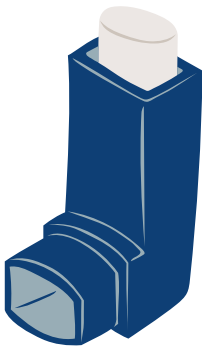

1 of every 3 students diagnosed has an asthma action plan with the school nurse.

Lessons Learned

- Various partners are eager to work together if a structure is provided.
- To fully enact School Based Asthma Therapy (SBAT) or School Based Asthma Management Program (SAMPRO) it would be helpful to have a school based health center established first.

Children with Medical Handicaps

7 School Nurses trained on Asthma education!

Newly formed Asthma Advisory Council
