

2022 Private Water Systems Registered Water Hauler List

Please Note: Private Water Systems (PWS) Water Haulers are registered at the LOCAL Health District in which their business is located. Once the company is registered and their truck is inspected and approved by their 'home' health district, the truck receives its STATE water hauler registration sticker which allows them to haul water anywhere within the state of Ohio. The Ohio Department of Health (ODH) relies on the local health districts who register and inspect the water haulers to provide the information about water haulers they register. If your company is not currently listed and you are registered and have been inspected to haul water in 2022, please contact the local health district which registered you and request that they provide your company's registration information to ODH for inclusion on this list.
