

# Childhood Lead Poisoning

**Notes:**

1. Only cities with 500 or more children tested in 2008 are listed.
2. The city columns do not have totals since not all of the cities are listed.
3. Elevated lead levels reflect the first confirmed, elevated test for the year.
4. Chart contains preliminary data and may be updated quarterly.
5. ug/dL = a measurement tool; micrograms per deciliter of blood

The chart below demonstrates the number of children screened and determined to have

City Name	Total Children Screened (0 - 72 months)	Under 10 ug/dL	10 - 14 ug/dL	15 - 19 ug/dL	20 - 24 ug/dL	25 ug/dL and over	Total EBLs
AKRON	4,821	4,787	18	12	3	1	34
