Bookmarks1.4

Printing.....1.5

Icons1.6

Abbreviations1.7

Purpose of Tuberculosis Control.....1.10

Ohio Laws and Rules on Tuberculosis Control1.11

Objectives and Standards1.12

Quality of care.....1.12

National and state program objectives.....1.13

Standards.....1.17

Roles, Responsibilities, and Contact Information1.18

State tuberculosis program staff1.18

Tuberculosis consultants1.18

Laboratories1.19

Resources and References1.20

SURVEILLANCE

Introduction2.2

Purpose.....2.2

Policy.....2.5

Laws and rules2.5

Tuberculosis Classification System2.7

Reporting Tuberculosis2.8

Reporting suspected or confirmed
cases of tuberculosis to the
local public health agency2.12

Required reports from local public health
agencies to the Ohio Department of Health
Tuberculosis
Program.....2.15

Data Collection.....2.15

Forms2.15

Computerized tuberculosis registry.....2.16

Document retention.....2.16

Genotyping2.17

Dissemination and Evaluation.....2.19

References.....2.20

TARGETED TESTING FOR LATENT TUBERCULOSIS INFECTION

Introduction3.2

Purpose.....3.2

Policy.....3.2

When to Conduct Targeted Testing3.3

Approaches to increasing targeted testing
and treatment for latent tuberculosis infection.....3.4

Screening for latent tuberculosis infection in
facilities.....3.5

References.....3.6

References.....3.9

B NOTIFICATIONS

Introduction	4.2
Purpose.....	4.2
Tuberculosis Classifications and Descriptions.....	4.4
Tuberculosis Screening Results and travel Clearance.....	4.5
Policy.....	4.5
Follow-up of B1 and B2 Tuberculosis Arrivals	4.6
Division of Global Migration and Quarantine Forms.....	4.6
Patient follow-up	4.7
Evaluation of B1 and B2 Tuberculosis Arrivals	4.8
Evaluation activities	4.8
Treatment.....	4.9
Resources and References	4.10

DIAGNOSIS OF TUBERCULOSIS DISEASE

Introduction	5.2
Purpose.....	5.2
Policy	5.3
Forms.....	5.4
Case Finding	5.5
Identifying suspected tuberculosis cases.....	5.5
Follow-up on suspected cases of tuberculosis	5.7
Diagnosis of Tuberculosis Disease... ..	5.8
Medical history	5.9
Human immunodeficiency virus screening	5.12
Physical examination	5.12
Tuberculin skin test and interferon gamma release assays.....	5.12
Chest radiography.....	5.14
Bacteriologic examination	5.15
Resources and References	5.18

TREATMENT OF TUBERCULOSIS DISEASE

Introduction	6.2
Purpose.....	6.2
Policy.....	6.2
Forms	6.3
Basic Treatment Principles.....	6.4
Treatment Regimens and Dosages	6.6
Regimens	6.6
Dosages	6.10
Duration of treatment.....	6.13
Side Effects and Adverse Reactions.....	6.15
Basic monitoring steps	6.15
Reporting reactions	6.17
Monitoring for side effects and adverse reactions by antituberculosis drug.....	6.18
Response to Treatment.....	6.25
Completion of Therapy.....	6.26
Post-Treatment Evaluation	6.27
Treatment in Special Situations	6.28
Drug-resistant tuberculosis.....	6.29
Human immunodeficiency virus infection	6.29
Alcoholism	6.30
Liver disease	6.32
Renal insufficiency and end-stage renal disease	6.33
Tuberculosis associated with tumor necrosis factor-alpha antagonists	6.36
Culture-negative pulmonary tuberculosis	6.36
Extrapulmonary tuberculosis	6.38
Pregnancy and breastfeeding	6.39
Tuberculosis in children.....	6.39
Resources and References.....	6.41

DIAGNOSIS OF LATENT TUBERCULOSIS INFECTION

Introduction.....7.2

Purpose.....7.2

Policy7.2

High-Risk Groups7.3

Diagnosis of Latent Tuberculosis Infection7.4

Interferon gamma release assays.....7.4

Mantoux tuberculin skin testing7.5

Candidates for Mantoux tuberculin
skin testing.....7.6

Administration of the tuberculin skin test7.9

Measurement of the tuberculin skin test7.11

Interpretation of the tuberculin skin test.....7.12

Human immunodeficiency virus screening7.14

Follow-up activities.....7.14

Chest radiography.....7.15

Resources and References7.17

TREATMENT OF LATENT TUBERCULOSIS INFECTION

Introduction.....8.2

Purpose.....8.2

Policy8.3

Forms.....8.3

Whom to Treat.....8.4

Susceptible and vulnerable contacts8.4

Tuberculin skin test results of 5 mm or more.....8.5

Tuberculin skin test results of 10 mm or more.....8.6

Tuberculin skin test results of 15 mm or more.....8.6

Treatment Regimens and Dosages.....8.7

Regimens.....8.8

Dosages.....8.9

Side Effects and Adverse Reactions8.10

Basic monitoring steps 8.11

Reporting reactions 8.12

Monitoring for side effects and adverse
reactions by antituberculosis drug..... 8.14

Adherence8.16

Monthly assessment of adherence..... 8.16

Directly observed therapy..... 8.17

Completion of Therapy.....8.18

Treatment in Special Situations8.20

Human immunodeficiency virus and
latent tuberculosis infection 8.20

Alcoholism 8.21

Pregnancy and breastfeeding 8.21

Resources and References.....8.23

CASE MANAGEMENT

Introduction9.2

Purpose 9.2

Policy..... 9.3

Forms 9.6

Acknowledgments 9.7

Initial Assessment9.8

Cultural sensitivity and language issues 9.8

Patient's medical records 9.9

Assessment site 9.9

Discharge planning..... 9.9

Initial assessment activities 9.9

Treatment Plan9.14

Treatment plan components..... 9.15

Planning activities..... 9.16

Implementation activities..... 9.17

**Ongoing Assessment
and Monitoring.....9.19**

Ongoing assessment activities 9.19

Monitoring side effects and
adverse reactions..... 9.21

Activities to monitor for side effects and
adverse reactions..... 9.23

Monitoring bacteriologic improvement 9.24

Activities to monitor for bacteriologic and
clinical improvement 9.25

Completion of Therapy9.29

Verifying adequate course of treatment..... 9.29

Calculating completion of therapy 9.30

Closures other than completion of therapy 9.30

Evaluation.....9.31

Evaluation activities 9.31

Directly Observed Therapy9.32

Candidates for directly observed therapy 9.32

How to deliver directly observed therapy 9.33

Adherence to directly observed therapy 9.34

Incentives and Enablers9.36

Eligible patients..... 9.36

Available incentives and enablers..... 9.36

Legal Orders.....9.37

Progressive interventions..... 9.37

Types of legal orders and
how to process them..... 9.40

Resources and References9.41

CONTACT INVESTIGATION

Introduction.....10.2

Purpose..... 10.2

Policy 10.3

Forms..... 10.4

**Structure of a
Contact Investigation10.5**

Basic steps of a contact investigation 10.5

Contact investigation plan 10.5

**Decision to Initiate a
Contact Investigation10.6**

Factors predicting transmission
of tuberculosis 10.6

Deciding to initiate a contact investigation 10.9

**Time Frames for
Contact Investigation10.12**

Information about the index patient
and transmission sites..... 10.12

Contact evaluation and treatment 10.14

Ongoing management activities 10.15

Infectious Period.....10.17

Index Patient Interviews10.20

Preinterview preparation 10.20

General guidelines for interviewing
an index patient..... 10.21

Field Investigation10.22

Contact Priorities10.24

Index patient with positive acid-fast bacilli
sputum smear results
or cavitary tuberculosis..... 10.26

Index patient with negative acid-fast bacilli
sputum smear results..... 10.29

Index patient with negative bacteriologic
results and abnormal chest radiographs
not consistent with tuberculosis..... 10.30

**Contact Evaluation, Treatment, and
Follow-up10.31**

Immunocompromised contacts
and children under five 10.32

Immunocompetent adults and
children five and older
(high- and medium-priority contacts)..... 10.35

Contacts with prior positive
tuberculin skin tests..... 10.37

**When to Expand a
Contact Investigation10.39**

Guidelines for expanding an investigation 10.39

Low-priority contacts 10.43

**Data Management and Evaluation
of Contact Investigations10.44**

Reasons contact investigation data are needed.....	10.43
Approach.....	10.43
Index patient and contact data.....	10.44
Evaluation of a contact investigation.....	10.55
Outbreak Investigation.....	10.46
Definition of a tuberculosis outbreak.....	10.46
Deoxyribonucleic acid genotyping	10.47
Ohio tuberculosis outbreak response plan	10.47
Resources and References	10.48

LABORATORY SERVICES

Introduction.....	11.2
Purpose.....	11.2
Policy	11.2
Available Laboratory Tests.....	11.4
Specimen Collection	11.6
How to perform spontaneous sputum collection at a healthcare facility	11.7
How to direct a patient to perform spontaneous sputum collection at home.....	11.8
Induced sputum collection at a healthcare facility	11.9
How to collect gastric aspirates	11.9
Bronchoscopy or collection of extrapulmonary specimens	11.9
Specimen Shipment	11.10
Resources and References	11.12

PATIENT EDUCATION

Introduction	12.2
Purpose	12.2
Policy.....	12.2
General Guidelines	12.3
Language and Comprehension Barriers	12.4
Education Topics	12.5
Medical diagnosis.....	12.5
Contact investigation	12.6
Isolation.....	12.6
Side effects and adverse reactions	12.6
Adherence	12.7
Patient Education Materials.....	12.8
Resources and References.....	12.9

CONFIDENTIALITY

Introduction	13.2
Purpose	13.2
Policy.....	13.2
Health Insurance Portability and Accountability Act (HIPAA).....	13.8
Centers for Disease Control and Prevention guidance on HIPAA	13.6
Ohio HIPAA policies	13.6
National Guidelines	13.9
Resources and References.....	13.10

TRANSFER NOTIFICATIONS

Introduction	14.2
Purpose.....	14.2
Policy	14.2
When to Initiate a Notification	14.4
How to Issue a Notification.....	14.6
Transfers inside the United States.....	14.6
Transfers outside the United States.....	14.8
References	14.11

SUPPLIES, MATERIALS, AND SERVICES

Introduction.....	15.2
Technical Assistance	15.3
Incentives and Enablers	15.3
Medical Consultation	15.4
Healthcare Staff Training and Education	15.4
Specimen Collection and Shipment Supplies	15.5

INFECTION CONTROL

Introduction.....	16.2
Purpose.....	16.2
Policy	16.3
Hierarchy of Infection Control Measures	16.4
Administrative controls.....	16.4
Environmental controls	16.6
Personal respiratory protection	16.7

Who Should Use a Mask or Respirator	16.9
--	-------------

Two-Step Tuberculin Skin Testing....	16.10
---	--------------

Isolation	16.11
Estimating infectiousness.....	16.12
Determining noninfectiousness	16.12

Airborne Infection Isolation in a Healthcare Facility	16.14
--	--------------

When to initiate airborne infection isolation.....	16.14
When to discontinue airborne infection isolation	16.15

Hospital Discharge	16.17
---------------------------------	--------------

Drug-susceptible tuberculosis disease.....	16.17
Multidrug-resistant tuberculosis disease	16.18
Release settings.....	16.18

Residential Settings	16.19
-----------------------------------	--------------

Administrative controls in the patient's home..	16.19
Environmental controls in the patient's home..	16.20
Respiratory protection in the patient's home...	16.20
Other residential settings.....	16.21

Return to Work, School, or Other Social Settings.....	16.22
--	--------------

Drug-susceptible tuberculosis disease.....	16.22
Multidrug-resistant tuberculosis disease	16.23

Tuberculosis Infection Control in Patient Care Facilities	16.24
--	--------------

Transportation Vehicles	16.26
--------------------------------------	--------------

Patient self-transport	16.26
Transport by healthcare workers.....	16.26
Transport by emergency medical services.....	16.26

Resources and References.....	16.27
--------------------------------------	--------------

GLOSSARY
