

Immunization Quality Improvement Program (IQIP)

What is IQIP?

IQIP is an immunization quality improvement program (QI) that uses evidence-based methods to assist and support health care providers by identifying opportunities to **improve vaccine coverage and reduce missed opportunities to vaccinate.**

Organizations with more than one location have the option to participate in a multi-provider site IQIP cycle, saving time and resources.

What is the Cost of the Program?

It is a **free program** for pediatric & adolescent immunization providers in Ohio!

Does Your Office Already Do QI?

IQIP can be performed alongside QI activities you are already doing!

It focuses specifically on immunization quality improvement with demonstrated success in improving vaccine workflow and coverage.

An IQIP Consultant Will Work With You and Your Staff Throughout a 12-Month Cycle To:

INITIAL SITE VISIT

Review immunization coverage assessments and set goals.
Design QI plan to implement.

2-MONTH CHECK IN

Progress check and technical assistance.

6-MONTH CHECK IN

Progress check and technical assistance.

12-MONTH FOLLOW UP

Assess QI progress and technical assistance.
Evaluate change in coverage assessments.

Thank you for your dedication and hard work to vaccinate Ohio's children and adolescents!
