## Researched based methods to increase HPV vaccine uptake.

**The Announcement Approach:** confidently provide a strong recommendation with all other due immunizations.

Source: [CDC](#)

**Focus on Cancer Prevention:** uptake is higher when the recommendation spotlights the vaccine as cancer prevention, as opposed to STI prevention.

Source: [NCI](#)

**Participate in an IQIP,** a CDC designed program using research-based methods to increase vaccine uptake. ([Immunization Quality Improvement for Providers](#))
