

MEMORANDUM

Date: May 2, 2024

To: Prospective Integration of Oral Health into Prenatal Care Program Applicants

From: Dyane Gogan Turner, MPH, RD/LD, IBCLC [DGT/AS](#)
Chief, Bureau of Child and Family Health
Ohio Department of Health

Subject: **Notice of Availability of Funds**
Competitive Grant Applications for Fiscal Year 2025,
Integration of Oral Health into Prenatal Care Program (IO25, 10/1/2024 to 9/30/2025)

The Ohio Department of Health (ODH), Bureau of Child and Family Health, Oral Health Program announces the availability of grant funds to support the Integration of Oral Health into Prenatal Care Program. The attached Solicitation will provide guidance in completing the online application for the competitive program period.

All electronic applications and attachments are due by **4:00 p.m., Monday, June 24, 2024** for the funding period October 1, 2024 through September 30, 2025. **Applications received after the due date will not be considered for funding.** Faxed, hand-delivered or mailed applications will not be accepted.

Introduction/Background

Oral health should be a routine part of prenatal care as poor oral health can lead to poor health outcomes for the mother and her baby. Up to 75% of women develop gingivitis during pregnancy due primarily to hormonal changes. Left unchecked, gingivitis can progress to periodontal disease (PD) which affects up to 40% of all pregnant women. Emerging evidence shows an association between PD and low birth weight and preterm birth although this association is not yet consistent across studies or clearly understood. More certain is that women are at risk for tooth decay during pregnancy due to changes in eating habits, frequent bouts of morning sickness and possibly less attention being paid to their oral hygiene practices.

In addition, the oral health of mothers directly impacts the oral health of their children. Babies are not born with the bacteria that cause tooth decay in their mouths. Those bacteria are transmitted, usually by the mother, through kissing, the use of shared eating utensils, or other common behaviors. Mothers who have a high number of untreated cavities have a high level of decay-causing bacteria and transmit high levels of the bacteria to their children, which then puts them at higher risk for cavities themselves. To impact the number of young children who develop tooth decay, efforts must be directed to ensure that pregnant women have good oral health and know how to positively impact their children's oral health from birth.

All interested parties must submit a *Notice of Intent to Apply for Funding* (NOIAF) no later than May 15, 2024 to be eligible to apply for funding. The NOIAF form is included with the Solicitation (Appendix A).

Upon receipt of your completed NOIAF, ODH will:

- a. Create the grant application account(s) for your organization¹. The account number(s) will allow you to complete the application(s) via the Internet using the Grant Management Information System (GMIS). All grant applications must be submitted via the Internet using GMIS.
- b. Assess your organization's GMIS training needs (as indicated on the completed *Notice of Intent to Apply for Funding* form). ODH will contact you regarding upcoming GMIS training dates. GMIS training is mandatory if your agency has never been trained on GMIS. Two people from an agency must attend the initial training for that agency.

Once a completed *Notice of Intent to Apply for Funding* form is received, the ODH creates the grant application(s) for your organization and finalizes all GMIS training requirements, you may proceed with the application process as outlined in the Solicitation. The Solicitation provides detailed information about the background, intent and scope of the grant, policies and procedures, performance expectations, general information and requirements associated with the administration of the grant.

Technical Assistance Session

A technical assistance session (Bidders' Conference) will be held on **Tuesday, May 14, 2024 at 10:00 a.m.** via Microsoft Teams virtual meeting platform. While attendance is not required, all potential applicants are encouraged to attend the Bidders' Conference to learn more about the Solicitation.

The ODH will share a screen through the Microsoft Teams platform. To join the meeting, please click on the link below, "Join on your computer or mobile app." If your agency does not have Microsoft Teams, you can join on a videoconferencing device or call in to use audio only. **PLEASE NOTE: Microsoft Teams works best using Google Chrome.**

I. APPLICATION SUMMARY and GUIDANCE

An application for an Ohio Department of Health (ODH) grant consists of several required components including an electronic portion submitted via online and various paper forms and attachments. All the required components of a specific application must be completed and submitted by the application due date. **If any of the required components are not submitted by the due date indicated in sections D, G and R, the entire application will not be considered for review.**

This is a competitive solicitation; a Notice of Intent to Apply for Funding (NOIAF – Appendix A) must be submitted by May 15, 2024 so access to the online application can be established.

NEW AGENCIES ONLY or if UPDATES are needed: For non-profit agencies, the NOIAF must be accompanied by proof of non-profit status. Both non-profit and local public agencies must submit proof of liability coverage. Potential applicants and current subrecipients are required to maintain their current supplier information in the State of Ohio Supplier Portal. This information includes, but is not limited to, Electronic Funds Transfer (EFT), 1099 Form and current address.

This information is maintained in the following website: <http://supplier.ohio.gov/>

Note: Subrecipients future payments will be held for any subrecipient that currently receives a paper check if the EFT information is not updated in the supplier portal.

The application summary information is provided to assist your agency in identifying funding criteria:

- A. Policy and Procedures:** Uniform administration of all the ODH grants is governed by the ODH Grants Administration Policies and Procedures (OGAPP) manual and any updates in policies that have been posted on the GMIS Bulletin Board. This manual and GMIS Bulletin Board policy updates must be followed to ensure adherence to the rules, regulations, and procedures for the preparation of all subrecipient applications. The OGAPP manual is available on the ODH website (click or copy and paste the following link into your web browser: <https://odh.ohio.gov/wps/portal/gov/odh/about-us/funding-opportunities/resources/grants-administrative-policies-and-procedures-ogapp-manual>).

Updates to policies and procedures can be found on the GMIS bulletin board. All budget justifications must include the following language and be signed by the agency head listed in GMIS. Please refer to the Budget Justification templates listed on the GMIS bulletin board.

Budget Justification Certification language

- Subrecipient understands and agrees that it must follow the federal cost principle that applies to its type of organization (2 CFR, Part 225; 2 CFR, Part 220; or, 2 CFR, Part 230).
- Subrecipient's budgeted costs are reasonable, allowable, and allocable under OGAPP and federal rules and regulations.
- The OGAPP and the rules and regulations have been read and are understood.
- Subrecipient understands and agrees that costs may be disallowed if deemed unallowable or in violation of OGAPP and federal rules and regulations.
- The appropriate programmatic and administrative personnel involved in this application are aware of the agency's policy with regard to subawards and are prepared to establish the necessary inter-institutional agreements consistent with those policies.
- Subrecipient agrees and understands that costs incurred in the fulfillment of the Deliverables must be allowable under OGAPP and federal rules and regulations to qualify for reimbursement.

B. Application Name: Integration of Oral Health into Prenatal Care Program

- C. **Purpose:** The purpose of the Integration of Oral Health into Prenatal Care Program is to demonstrate the ability of non-profit primary health care facilities to integrate oral health into their prenatal services.

Oral health should be a routine part of prenatal care as poor oral health can lead to poor health outcomes for the mother and her baby. Up to 75% of women develop gingivitis during pregnancy due primarily to hormonal changes. Left unchecked, gingivitis can progress to periodontal disease (PD) which affects up to 40% of all pregnant women. Emerging evidence shows that women with PD may be at risk for poor pregnancy outcomes such as low birth weight and preterm birth, although this association is not yet consistent across studies nor entirely understood. More certain is women are at risk for tooth decay during pregnancy due to changes in eating habits, frequent bouts of morning sickness and possibly less attention being paid to their oral hygiene practices.

The oral health of mothers directly impacts the oral health of their children. Babies are not born with the bacteria that causes tooth decay in their mouth. Those bacteria are transmitted, usually by the mother, through kissing, the use of shared utensils, or other common behaviors. Mothers who have a high number of untreated cavities have a high level of decay-producing bacteria and transmit high levels of the bacteria to their children which puts them at higher risk for cavities themselves.

Data from the 2016-2017 oral health screening survey of preschool children in Ohio show that nearly one-quarter of children ages 3-5 have experienced tooth decay, and this percentage more than doubles by third grade. To impact the number of young children who develop tooth decay, efforts must be directed to ensure that pregnant women have good oral health and know how to positively impact their children's oral health from birth.

To have good oral health, pregnant women also need to be able to access dental care. Data from the 2021 Ohio Pregnancy Assessment Survey show that significant disparities in accessing dental care exist among pregnant women in Ohio. Those who are younger, live in federally designated dental health professional shortage areas (e.g., Appalachian counties or urban city centers), are Black or Hispanic, or have a lower income are less likely to see a dentist on a regular basis. The lack of regular dental care means it's imperative that prenatal care providers play a more active role in ensuring the oral health of their pregnant patients by routinely conducting oral health assessments, providing education and counseling, and assisting patients in accessing dental care through referral and case management. The expectation of this program is that each prenatal client will receive an oral health assessment and oral health education in their first trimester (ideally in the first prenatal visit) and at least once more in the second or third trimester.

- D. Qualified Applicants:** All applicants must be a local public or non-profit agency, or health care facility that is currently providing prenatal health care services in out-patient settings to women who may be considered at higher risk for dental disease. Those at high risk include, but are not limited to pregnant women with disabilities, those who are low-income, minorities and/or are geographically isolated. At least 25% of the applicant agency's monthly women's health appointments must be for providing prenatal care. In addition, applicants must have one or more sources for timely dental referrals within their service area. Applicant agencies must have the capacity to accept an electronic funds transfer (EFT). If an applicant agency needs GMIS access, then a GMIS access form must be submitted (Appendix B).

The following criteria must be met for grant applications to be eligible for review:

1. The applicant does not owe funds to ODH and has repaid any funds due within 45 days of the invoice date.
2. The applicant has not been certified to the Attorney General's (AG's) office.
3. The applicant has submitted an application and all required attachments by **4:00 p.m. on Monday June 24, 2024.**

- E. Service Area:** Integration of Oral Health into Prenatal Care Program applicant agencies may serve a city, county, combination of counties or other area defined by governmental subdivision of standard levels of geography (e.g., township, census tracts, etc.). Applicants serving populations located in higher need geographic areas (e.g., dental health professional shortage areas (HPSAs), Appalachia, areas with high Social Vulnerability Index (SVI) scores, etc.) or areas with limited resources will be given priority. Information on HPSAs can be found on the [Health Resources and Services Administration's Data Warehouse](#) and SVI data can be found on the [Ohio Health Improvement Zones Dashboard](#).

- F. Number of Grants and Funds Available:** Funding to support the Integration of Oral Health into Prenatal Care subgrant program is derived from federal sources. Up to \$200,000 from the Health Resources and Services Administration's Maternal and Child Health Block Grant is available to be awarded to four agencies currently providing prenatal services to a significant number of clients in outpatient settings. Eligible agencies may apply for a maximum award of \$50,000.

Agencies previously funded through this subgrant, agencies conducting this work but not currently funded by ODH, and agencies that have never conducted nor been funded through this ODH subgrant are eligible to apply. The grant requirements are different, depending on agency's status as an established program or new program. Agencies that have previously or are currently conducting this work will be required to conduct the activities listed in Section 1 below. Agencies that have never conducted nor been funded by ODH for this work must conduct the activities listed in Section 2. **Applicants with a previous ODH Integration of Oral Health into Prenatal Care grant must have demonstrated acceptable performance standards during the previous grant period.**

Section 1: Requirements for agencies with established integration of oral health into prenatal care programs (whether ODH-funded or not)

Implementation and Reporting (must begin on October 1, 2024)

1. Use an approved set of standardized interview questions during prenatal appointments.
2. Provide a brief assessment of the mouth during prenatal appointments.
3. Provide approved oral health education during prenatal appointments.
4. Enter results of assessment, education, and treatment urgency (need for dental services) into patients' health record.

5. Provide referral and case management services to assure all patients who need dental care receive it. Referral and case management may include scheduling the dental appointment, creating appointment reminders, arranging and paying for childcare and/or transportation as needed for clients who have limited resources (e.g., those who are uninsured, low-income, etc.) and providing follow-up with clients to ensure they receive the dental care.
6. Provide required progress reports to ODH including monthly and quarterly data reporting forms provided by ODH.
7. Provide final program report to ODH.
8. Throughout grant period, ensure all providers of prenatal services, e.g., MDs, NPs, CNMs, RNs, etc. at practice sites selected to participate in the project, have completed training modules that relate to the prenatal population from the online [Smiles for Life: A National Oral Health Curriculum](#). At a minimum, providers must complete Pregnancy and Women's Oral Health, Child Oral Health, and The Oral Examination modules from the curriculum. Documentation of completion of this training is required for all providers participating in the project.
9. **For agencies that are currently doing this work, ODH grant funds may not be used to supplant existing funding.**

Evaluation (must begin on October 1, 2024)

1. Use a survey instrument to evaluate the barriers to completing dental referral for patients who are referred for care as part of the oral health assessment. If needed, equipment to enhance data collection may be purchased as defined in Appendix C1.
2. Using data collected from patients through the survey instrument, design outreach strategies to eliminate barriers to completing dental referral. Strategies may include incentives as defined in Appendix C1.

Section 2: Requirements for agencies that have never conducted nor received ODH funding for an integration of oral health into prenatal care program

Oral Health Integration Planning Phase (must end no later than March 30, 2025)

Required activities include the following:

1. Hire or contract for one or more staff to coordinate all planning activities, as well as to provide case management for prenatal patients who require follow-up dental care as described in the Oral Health Integration Implementation Phase. The Oral Health Integration Program Coordinator must work a sufficient number of hours to accomplish the required planning and implementation activities. Optionally, an agency may choose to increase the hours of a currently employed part-time staff person. **Program grant funds may not be used to supplant existing funding.**
2. Develop a work plan for the 12-month grant period.
3. Ensure all providers of prenatal services, e.g., MDs, NPs, CNMs, RNs, etc. at practice sites selected to participate in the project complete training modules that relate to the prenatal population from the online [Smiles for Life: A National Oral Health Curriculum](#). At a minimum, providers must complete Pregnancy and Women's Oral Health, Child Oral Health, and The Oral Examination modules from the curriculum.
4. Develop or adapt oral health assessment tools to determine the oral health status of prenatal patients.
5. Develop or adapt oral health educational materials to be used during prenatal visits.
6. Develop tracking mechanisms to assure patients receive assessment, education, and case management. Integration of program data into the electronic health record is required.
7. Train staff on new workflow processes.

8. Develop methodology for extracting data from electronic health record to complete monthly and quarterly data reporting forms provided by ODH.

Oral Health Integration Implementation Phase (must begin no later than April 1, 2025)

1. Select date to begin integration of oral health assessment and education into prenatal appointments.
2. Begin using standardized interview questions during prenatal appointments.
3. Provide a brief assessment of the mouth during prenatal appointments.
4. Enter results of assessment, education, and treatment urgency (need for dental services) into patients' health record.
5. Provide referral and case management services to assure all patients who need dental care receive it. Referral and case management may include scheduling the dental appointment, creating appointment reminders, arranging and paying for childcare and/or transportation as needed for clients who have limited resources (e.g., those who are uninsured, low-income, etc.) and providing follow-up with clients to ensure they receive the dental care.
6. Provide required progress reports to ODH including monthly and quarterly data reporting forms provided by ODH.
7. Provide final program report to ODH.

No grant award will be issued for less than \$30,000. The minimum amount is exclusive of any required matching amounts and represents only ODH funds granted. Applications submitted for less than the minimum amount will not be considered for review.

- G. Due Date:** All parts of the application, including any required attachments, must be completed, and received by ODH electronically via GMIS by **4:00 p.m. by Monday, June 24, 2024**. Applications and required attachments received after this deadline will not be considered for review.

Contact Star Sawicki, Oral Health Integration Specialist, via email at Star.Sawicki@odh.ohio.gov or by phone at (614) 644-8496 with any questions.

- H. Authorization:** Authorization of funds for this purpose is contained in the *Catalog of Federal Domestic Assistance (CFDA) Number 93.994*.

- I. Goals:** The goals of the Integration of Oral Health into Prenatal Care Program are to demonstrate the effectiveness of integrating **oral health assessment, education, and referral and case management** for oral health care into prenatal health care services.

- The focus of the **oral health assessment** component is to identify women who have oral health needs by using a standardized, brief and easy-to-use oral health assessment tool that consists of interview questions and a brief assessment of the mouth.
- The focus of the **oral health education** component is to equip women with the information needed to maintain good oral health during the prenatal period. Education topics must include, but are not limited to:
 1. How a woman's oral health may affect the health of her baby.
 2. Common oral health issues during pregnancy.
 3. Oral hygiene practices.
 4. Caries risk transmission from mother to child.

5. Dietary guidelines for good oral health during pregnancy.
6. Safety of dental care during pregnancy.

In addition, this is an opportune time to educate pregnant women about the oral health needs of infants and young children. Education topics must include, but are not limited to:

- Early childhood caries.
 - Oral hygiene.
 - Teething.
 - Tooth eruption patterns.
 - Dental visit by the baby's first birthday.
-
- The focus of the **referral and case management** component is to ensure that a pregnant woman with additional oral health needs is referred to, and seen by, a dentist. This step goes beyond simply telling a woman she needs to see a dentist; rather it includes taking the necessary steps to make sure a woman has access to a dental provider and providing or arranging for supportive services needed for the woman to complete the referral (such as appointment reminders, transportation or childcare).

J. Program Period and Budget Period: The program period will begin October 1, 2024 and end on September 30, 2025. The budget period for this application is October 1, 2024 through September 30, 2025.

K. Public Health Accreditation Board (PHAB) Standard(s): This grant program will address PHAB standard 3.1: Provide Health Education and Health Promotion Policies, Programs, Processes, and Interventions to Support Prevention and Wellness. Applicants may include other PHAB standards, if desired. The PHAB standards are available at the following website:

http://www.phaboard.org/wp-content/uploads/PHABSM_WEB_LR1.pdf

L. Public Health Impact Statement: All applicant agencies that are not local health districts must communicate with local health districts regarding the impact of the proposed grant activities on the PHAB Standards.

1. *Public Health Impact Statement Summary* — Applicants are required to submit a summary of the proposal to local health districts prior to submitting the grant application to ODH. The program summary, not to exceed one page, must include:

Public Health Accreditation Board (PHAB) Standard(s) to be addressed by grant activities. Please select from the following:

- **standard 1.3:** Analyze Public Health Data to identify trends in Health Problems, Environmental Public Health Hazards, and Social and Economic Factors that Affect the Public's Health.
- **standard 1.4:** Provide and Use the Results of Health Data Analysis to Develop Recommendations Regarding Public Health Policy, Processes, Programs, or Intervention.
- **standard 2.2:** Contain/Mitigate Health Problems and Environmental Public Health Hazards.
- **standard 3.2:** Provide Information on Public Health Issues and Public Health Functions Through Multiple Methods to a Variety of Audiences.
- **standard 4.1:** Engage with the Public Health System and the Community in Identifying and Addressing Health Problems through Collaborative Processes.
- **standard 10.2:** Promote Understanding and Use of the Current Body of Research Results, Evaluations, and Evidence-Based Practices with Appropriate Audiences.

The applicant must submit the above summary as part of the grant application to ODH. This will document that a

written summary of the proposed activities was provided to the local health districts with a request for their support and/or comment about the activities as they relate to the PHAB Standards.

2. Public Health Impact Statement of Support —Include with the grant application a statement of support from the local health districts, if available. If a statement of support from the local health districts is not obtained, note this when submitting the program summary with the grant application. If an applicant has a regional and/or statewide focus, a statement of support should be submitted from at least one local health district, if available.

3. Evidence of Health Equity Strategies

The ODH is committed to the elimination of health disparities and achieving health equity for all Ohioans. The items below are requirements for all applicants to ensure health equity is embedded within all components of the application (e.g., Goals, Program Narrative, and Objectives.)

- 1) Identify specific groups who experience a disproportionate burden of disease, health condition or health outcome targeted by this solicitation (See Ohio's State Health Assessment for Ohio's health data) at <https://odh.ohio.gov/wps/portal/gov/odh/explore-data-and-stats/interactive-applications/>.
- 2) Identify geographic reference points (i.e., census tracts, census block groups or zip codes) to specify where program activities are focused.
- 3) Use direct or indirect feedback from the prioritized population, community, group, or community agency to identify specific social and environmental conditions (social determinants of health) associated with health disparities and health inequities.
- 4) Identify measurable health equity targets that demonstrate reducing disparities and improving health equity are critical goals to be achieved through program activities. This information must also be supported by data. For guidance on methodology to establish equity targets, review 2030 Target Setting Methodologies for Objectives in Healthy People 2030.
<https://www.healthypeople.gov/sites/default/files/TargetSettingReport-8-6-18%20FINAL.pdf>
- 5) Outline specific evaluation strategies to measure the impact of program activities on decreasing and/or eliminating health disparities and health inequities.

The following are best practices aimed at eliminating disparities and achieving health equity. They are not required, but highly encouraged to use.

- 1) Link proposed activities to health equity strategies identified in local, state, or national planning documents. These documents include, but are not limited to strategies, goals and objectives outlined in the [Healthy People 2030](#), the [State Health Improvement Plan \(SHIP\)](#) and local Community Health Assessments.
 - State Health Improvement Plan - <https://odh.ohio.gov/wps/portal/gov/odh/about-us/sha-ship>
 - Healthy People 2030 - <https://health.gov/healthypeople>
- 2) Develop staffing plans where board members, leadership and program staff reflect the race, ethnicity, background, and/or culture of the population being served.

- 3) Identify up and downstream approaches to address social determinants of health and reduce disparities. Upstream factors like food, housing and income insecurity that focus on addressing social determinants of health decrease barriers and improve supports that provide opportunity for people to achieve their full health potential. Downstream approaches focus on providing equitable access to care and services to reduce the negative impact of social determinants on health outcomes.
- 4) Establish non-traditional partnerships among different sectors of the community (e.g., faith-based organizations, community organizations, businesses, universities, healthcare) that can provide valuable insight, new perspective, and more effective ways to achieve program goals. Non-traditional partners create opportunities to collaborate across sectors and may serve as a new source of support for the program.

Understanding Health Disparities, Health Inequities, Social Determinants of Health & Health Equity: The following information is provided to explain key health equity concepts and terms.

Racial and ethnic minorities, those living in rural communities, people with disabilities, the LGBTQ community and Ohio's economically disadvantaged residents do not have the same opportunities as other groups to achieve and sustain optimal health. Health disparities occur when these groups experience more diseases, death, or disability is beyond what would normally be expected based on their relative size of the population. Health disparities are often characterized by such measures as disproportionate incidence, prevalence and/or mortality rates of diseases or health conditions. Health is largely determined by where people live, learn, work, play, and age. Health disparities are unnatural and occur because of low socioeconomic status, race/ethnicity, sexual orientation, gender, disability status, geographic location, or some combination of these factors. Those most impacted by health disparities also tend to have less access to resources like healthy food, safe housing, quality education, safe neighborhoods and freedom from racism and other forms of discrimination. These are referred to as **social determinants of health (SDOH)**. SDOH is a root cause of health disparities. The systematic nature of health disparities is considered unjust and is referred to as **health inequities**. The ability of everyone to have the same opportunity to achieve the best health possible is referred to as **health equity**. Programs that incorporate social determinants into the planning and implementation of interventions will greatly contribute to advancing health equity.

M. Human Trafficking: Human trafficking is defined by the use of force, fraud, or coercion to compel victims into performing labor or commercial sex acts. Populations at increased risk include but are not limited to lesbian-gay-bisexual-transgender-questioning individuals, individuals with disabilities, undocumented immigrants, runaway and homeless youth, temporary guest-workers, and low-income individuals.

ODH is committed to the elimination of human trafficking in Ohio. If applicable to the subrecipient program, ODH will give priority consideration to those subrecipients who can demonstrate the following:

1. Victims of human trafficking are included in your agency's target population.
 - a. At-risk population
 - b. Mental health population
 - c. Homeless population
2. Agencies that promote the expansion of services to identify and serve those affected by human trafficking.

 X Applicable to Integration of Oral Health into Prenatal Care Program

- N. Appropriation Contingency:** Any award made through this program is contingent upon the availability of funds for this purpose. **The subrecipient agency must be prepared to support the costs of operating the program in the event of a delay in grant payments.**
- O. Programmatic, Technical Assistance and Authorization for Internet Submission:** Agencies will receive their authorization after the posting of the Solicitation to the ODH website and the receipt of the NOIAF. Please contact Star Sawicki, Oral Health Integration Specialist, via email at Star.Sawicki@odh.ohio.gov or by phone at (614) 644-8496 for questions regarding this Solicitation.
- P. Acknowledgment:** An application submitted status will appear in GMIS that acknowledges ODH system receipt of the application submission.
- Q. Late Applications:** GMIS automatically provides a time and date system for grant application submissions. Required attachments and/or forms must be uploaded into GMIS by **Monday, June 24, 2024 at 4:00 p.m.**
- R. Successful Applicants:** Successful applicants will receive official notification in the form of a Notice of Award (NOA). The NOA, issued over the signature of the Director of the Ohio Department of Health, allows for expenditure of the funds.
- S. Unsuccessful Applicants:** Within 30 days after a decision to disapprove or not fund a grant application, a written notification, issued over the signature of the Director of Health, or his designee, shall be sent to the unsuccessful applicant via GMIS.
- T. Review Criteria:** All proposals will be graded on the quality, clarity, and completeness of the application. Applications will be graded according to the extent to which the proposal:
1. Workplan and/or logic model demonstrate how activities reduce health disparities and inequities.
 2. Is responsive to policy concerns and program objectives of the initiative/program/activity for which grant dollars are being made available.
 3. Is well executed and can attain program objectives.
 4. Describe Specific, Measurable, Attainable, Realistic, Time-Phased, Inclusive, and Equitable (S.M.A.R.T.I.E.) objectives, activities, (SMARTIE) milestones and outcomes with respect to timelines and resources.
 5. Estimate reasonable cost to the ODH, considering the anticipated results.
 6. Show that program personnel are well qualified by training and/or experience for their roles in the program, and the applicant organization has adequate facilities and personnel to reflect the communities served through grant funds.
 7. Have an evaluation plan, including a design for determining program success and demonstrate that the community being served will be meaningfully engaged in formative and outcome evaluations.
 8. Respond to the special concerns and program priorities specified in the Solicitation.
 9. Have acceptable past performance in areas related to programmatic and financial stewardship of grant funds.
 10. Are compliant with OGAPP.
 11. Explicitly identify specific groups in the service area who experience a disproportionate burden of the diseases; health condition(s); or who are at an increased risk for problems addressed by this funding opportunity.
 12. Describe activities which support the requirements outlined in Sections I. thru M. of this Solicitation Program.
 13. Has demonstrated acceptable past performance in areas related to programmatic and financial stewardship of grant funds.

Additional details of scoring can be found in Appendix D, Integration of Oral Health into Prenatal Care Program Application Review form.

ODH will make the final determination and selection of successful/unsuccessful applicants and reserves the right to reject any or all applications for any given solicitations. **There will be no appeal of the Department's decision.**

U. Freedom of Information Act: The Freedom of Information Act (5 U.S.C.552) and the associated Public Information Regulations require the release of certain information regarding grants requested by any member of the public. The intended use of the information will not be a criterion for release. Grant applications and grant-related reports are generally available for inspection and copying except that information considered being an unwarranted invasion of personal privacy will not be disclosed. For guidance regarding specific funding sources, refer to: 45 CFR Part 5 for funds from the U.S. Department of Health and Human Service; 34 CFR Part 5 for funds from the U.S. Department of Education or, 7 CFR Part 1 for funds from the U.S. Department of Agriculture. [Select only the appropriate reference.]

V. Ownership Copyright: Any work produced under this grant, including any documents, data, photographs and negatives, electronic reports, records, software, source code, or other media, shall become the property of ODH, which shall have an unrestricted right to reproduce, distribute, modify, maintain, and use the work produced. If this grant is funded in whole, or in part, by the federal government, unless otherwise provided by the terms of that grant or by federal law, the federal funder also shall have an unrestricted right to reproduce, distribute, modify, maintain, and use the work produced. No work produced under this grant shall include copyrighted matter without the prior written consent of the owner, except as may otherwise be allowed under federal law.

ODH must approve, in advance, the content of any work produced under this grant. All work must clearly state:

"This work is funded either in whole or in part by a grant awarded by the Ohio Department of Health, Bureau of Child and Family Health, Oral Health Program, and as a sub-award of a grant issued by Health and Human Services under Title V, Maternal and Child Health Block Grant, CFDA number 93.994."

W. Reporting Requirements: Successful applicants are required to submit subrecipient program and expenditure reports. The reports must be received in accordance with the requirements of the OGAPP manual and this solicitation before the department releases any additional funds.

Note: Failure to ensure the quality of reporting by submitting incomplete and/or late program or expenditure reports will jeopardize the receipt of future agency payments.

Reports shall be submitted as follows:

a. Program Reports: Subrecipients' program reports must be completed and submitted via GMIS, as required by the subgrant program by the following dates. Additional program reporting requirements can be found in Appendix C1, Deliverable – Objective Descriptions. **Program reports that do not include required attachments will not be approved.** All program report attachments must clearly identify the authorized program name and grant number.

☒ Program Reports Required ☐ No Program Reports Required

| Period | Report Due Date |
|-----------------------|-------------------|
| October 1 – 31, 2024 | November 10, 2024 |
| November 1 – 30, 2024 | December 10, 2024 |
| December 1 – 31, 2024 | January 10, 2025 |

| | |
|------------------------|--------------------|
| January 1 – 31, 2025 | February 10, 2025 |
| February 1 – 28, 2025 | March 10, 2025 |
| March 1 – 31, 2025 | April 10, 2025 |
| April 1 – 30, 2025 | May 10, 2025 |
| May 1 – 31, 2025 | June 10, 2025 |
| June 1 – 30, 2025 | July 10, 2025 |
| July 1 – 31, 2025 | August 10, 2025 |
| August 1 – 31, 2025 | September 10, 2025 |
| September 1 – 30, 2025 | October 10, 2025 |

Submission of subrecipient program reports via GMIS indicates acceptance of the OGAPP.

Funded agencies will also be required to attend monthly or quarterly meetings (virtual) with ODH staff to discuss progress towards meeting the requirements set forth in Appendix C1, Deliverable – Objective Descriptions.

- b. Subrecipient Reimbursement Expenditure Reports:** Subrecipients can choose monthly or quarterly reimbursements (expenditure report submission) from ODH (please check the reimbursement type on the attached NOIAF). Please note that no changes can be made to the reimbursement type during the fiscal year once the project numbers have been established in GMIS. Subrecipient monthly reimbursement expenditure reports **must** be completed and submitted **via GMIS** by the following dates:

| Period | Report Due Date |
|------------------------|--------------------|
| October 1 – 31, 2024 | November 10, 2024 |
| November 1 – 30, 2024 | December 10, 2024 |
| December 1 – 31, 2024 | January 10, 2025 |
| January 1 – 31, 2025 | February 10, 2025 |
| February 1 – 28, 2025 | March 10, 2025 |
| March 1 – 31, 2025 | April 10, 2025 |
| April 1 – 30, 2025 | May 10, 2025 |
| May 1 – 31, 2025 | June 10, 2025 |
| June 1 – 30, 2025 | July 10, 2025 |
| July 1 – 31, 2025 | August 10, 2025 |
| August 1 – 31, 2025 | September 10, 2025 |
| September 1 – 30, 2025 | October 10, 2025 |

Subrecipient quarterly reimbursement expenditure reports **must** be completed and submitted **via GMIS** by the following dates: **(please see example below)**.

| Period | Report Due Date |
|-------------------------------|------------------|
| October 1 – December 31, 2024 | January 10, 2025 |
| January 1 – March 31, 2025 | April 10, 2025 |
| April 1 – June 30, 2025 | July 10, 2025 |
| July 1 – September 30, 2025 | October 10, 2025 |

Note: Obligations not reported in the final monthly or 4th quarter expenditure report will not be considered for payment with the final expenditure report.

c. Final Expenditure Reports: A Subrecipient final expenditure report reflecting total expenditures for the fiscal year must be completed and submitted **via GMIS by 4:00 p.m.** on or before November 5, 2025. The information contained in this report must reflect the program's accounting records and supportive documentation. Any cash balances must be returned with the Subrecipient final expense report, which serves as an invoice to return unused funds.

- *Submission of the Monthly/Quarterly and Final subrecipient expenditure reports via the GMIS system indicates acceptance of OGAPP. Clicking the "Approve" button constitutes an authorization of the submission the agency official and serves as an electronic acknowledgment and acceptance of OGAPP rules and regulations.*

X. Special Condition(s): A Special Conditions link is available for viewing and responding to special conditions within GMIS. The 30-day time-period, in which the subrecipient must respond to special conditions will begin when the link is viewable. Subsequent payments will be withheld until satisfactory responses to the special conditions or a plan describing how those special conditions will be satisfied is submitted to GMIS.

Y. Unallowable Costs: Funds **may not** be used for the following:

1. To advance political or religious points of view or for fund raising or lobbying.
2. To disseminate factually incorrect or deceitful information.
3. Consulting fees for salaried program personnel to perform activities related to grant objectives.
4. Bad debts of any kind.
5. Contributions to a contingency fund.
6. Entertainment.
7. Fines and penalties.
8. Membership fees — unless related to the program and approved by ODH.
9. Interest or other financial payments (including but not limited to bank fees).
10. Contributions made by program personnel.
11. Costs to rent equipment or space owned by the funded agency.
12. Inpatient services.
13. The purchase or improvement of land; the purchase, construction, or permanent improvement of any building; unless allowable by the grant.
14. Satisfying any requirement for the expenditure of non-federal funds as a condition for the receipt of federal funds.
15. Payments to any person for influencing or attempting to influence members of Congress or the Ohio General Assembly in connection with awarding of grants.
16. *Applicants may not use Integration of Oral Health into Prenatal Care Program funds to supplant existing funds.*

Subrecipients will not receive payment from ODH grant funds used for prohibited purposes. ODH has the right to recover funds paid to Subrecipients for purposes later discovered to be prohibited.

AA. Audit: Subrecipients currently receiving funding from the ODH are responsible for submitting an independent audit report. Every subrecipient will fall into one of two categories which determine the type of audit documentation required.

Subrecipients that spend \$750,000 or more in federal awards per fiscal year are required to have a single audit which meets OMB's Federal Uniform Administrative Requirements. The subrecipient must submit, a copy of the auditor's management letter, a corrective action plan (if applicable) and a data collection form (for single audits)

within 30 days of the receipt of the auditor's report, but no later than nine months after the end of the Subrecipient's fiscal year. The fair share of the cost of the single audit is an allowable cost to federal awards provided that the audit was conducted in accordance with the requirements of OMB's Federal Uniform Administrative Requirements.

Subrecipients that expend less than the \$750,000 threshold require a financial audit conducted in accordance with Generally Accepted Government Auditing Standards. The Subrecipient must submit a copy of the audit report, the auditor's management letter, and a corrective action plan (if applicable) within 30 days of the receipt of the auditor's report, but no later than nine months after the end of the subrecipient's fiscal year. **The financial audit is not an allowable cost to the program.**

Once an audit is completed, a copy must be sent to <https://harvester.census.gov/facweb/> or to the ODH Grants Services Unit, (GSU) within 30 days. Reference:

OGAPP and OMB's Omni Circular Federal Uniform Administrative Requirements regarding Audits of States, Local Governments, and Non-Profit Organizations for additional audit requirements.

Subrecipient audit reports (finalized and published, and including the audit Management Letters, if applicable) **which include internal control findings, questioned costs or any other material findings, must include a cover letter which:**

- Lists and highlights the applicable findings.
- Discloses the potential connection or effect (direct or indirect) of the findings on subgrants passed through ODH.
- Summarizes a Corrective Action Plan (CAP) to address the findings. A copy of the CAP must be attached to the cover letter.

AB. Application Submission: Formatting Requirements:

- Properly label each item of the application packet (e.g., Budget Narrative, Program Narrative, etc.).
- Each section should use 1.5 spacing with one-inch margins.
- Program and budget narratives must be submitted in portrait orientation on 8 ½ by 11 paper.
- Number all pages (print on one side only).
- Program narrative should not exceed 11 pages (**excludes** appendices, attachments, budget, and budget narrative).
- Use a 12-point Calibri font.
- Forms must be completed and submitted in the format provided by ODH.

The GMIS application submission must consist of the following:

**Complete &
submit
online.**

1. Application Information
2. Project Narrative (including letters of support)
3. Project Contacts
4. Budget
 - Primary Reason
 - Funding
 - Justification
 - Personnel
 - Other Direct Costs
 - Equipment
 - Contracts

- Compliance Section
 - Summary
5. Civil Rights Review Questionnaire
 6. Assurances Certification
 7. Federal Funding Accountability and Transparency Act (FFATA) reporting form. Must have an active SAM.gov registration.
 8. Change request in writing on agency letterhead **(Existing agency with tax identification number, name and/or address change(s))**.
 9. If not previously submitted, if all federal funding expensed equals or exceeds \$750,000, upload the current audit to <https://harvester.census.gov/facweb/> or if less than \$750,000, email audit to audits@odh.ohio.gov.
 10. Public Health Impact Statement Summary (non-health department only)
 11. Statement of Support from the Local Health Districts (non-health department only)
 12. Appendix E, Practice Site Locations and Prenatal Care Provider Information

II. APPLICATION REQUIREMENTS AND FORMAT

Agencies will receive GMIS access after the Notice of Intent to Apply for Funding is submitted to ODH.

All applications must be submitted via GMIS. Submission of all parts of the grant application via the ODH's GMIS system indicates acceptance of OGAPP. Submission of the application constitutes an authorization by the agency official and serves as an electronic acknowledgment and acceptance of OGAPP rules and regulations in lieu of an executed Signature Page document.

A. Application Information: Information on the applicant agency and its administrative staff must be accurately completed. This information will serve as the basis for necessary communication between the agency and ODH.

B. Budget: Prior to completion of the budget section, please review page 13 of the Solicitation for unallowable costs. A match or applicant share is not required by this program. Do not include match or applicant share in the budget and/or the applicant share column of the Budget Summary. Only the narrative may be used to identify additional funding information from other resources.

1. **Primary Reason and Justification Pages:** Provide a budget justification narrative outlining how the deliverable will be met. A budget justification example can be found on the GMIS Bulletin Board or in Appendix F.
2. **Other Direct Costs:** Submit a budget for this section and the necessary form(s) to support costs for the period October 1, 2024 to September 30, 2025.

Funded agencies are required to employ or contract for one or more persons to coordinate all grant activities including planning, program development, case management and reporting. This person(s) must work a sufficient number of hours to accomplish the required grant planning and implementation activities. While a dental background is helpful, it is not necessary to hire a dental professional for this project.

NOTE: Hiring a program coordinator for the grant, Deliverable – Objective 1A, is a requirement for new programs, never funded through this grant. See Appendix C1 and C2 for additional information.

The applicant shall retain all original fully executed contracts on file.

3. **Compliance Section:** Answer each question on this form in GMIS as accurately as possible. *Completion of the form ensures your agency's compliance with the administrative standards of ODH and federal grants.*

C. Assurances Certification: Each subrecipient must submit the assurances (Federal and State Assurances for subrecipients) form within GMIS. This form is submitted as a part of each application via GMIS. The Assurances Certification sets forth standards of financial conduct relevant to receipt of grant funds and is provided for informational purposes. The listing is not all-inclusive, and any omission of other statutes does not mean such statutes are not assimilated under this certification. Review the form and then press the "Complete" button. By submitting the application, the subrecipient agency acknowledges the financial standards of conduct as stated herein.

D. Project Narrative: (Limited to a maximum of 11 pages including the Executive Summary but excluding attachments.)

1. **Executive Summary:** (One page limit) Identify the target population, services, and programs to be offered and what agency or agencies will provide those services and describe the burden of health disparities and health inequities related to this grant funding. Describe the public health problem(s) that the program will address. Outline the program goals and objectives. At a minimum, specify the number of prenatal patients and visits projected for the project period, as well as the number of encounters providing oral health assessment and education. In addition, describe how the program will be evaluated and the agency's plan for quality assurance. Indicate total amount of funding requested.

2. **Description of Applicant Agency/Documentation of Eligibility/[Personnel]:** Briefly discuss the applicant agency's eligibility to apply. Summarize the agency's structure as it relates to this program and, as the lead agency, how it will manage the program. Describe the agency's experience in providing prenatal services and its capacity to implement this project. If the agency is currently providing prenatal services in more than one practice site, provide details about all clinic locations. Describe all services provided by your agency and what percentage of visits are for prenatal care. Agencies must complete Appendix E, Practice Site Locations and Prenatal Care Provider Information. Describe your agency's efforts in linking patients to other community-based resources, e.g., WIC, Early Head Start, etc. Agencies that offer prenatal services at more than one practice site may choose to implement the oral health integration program throughout the agency's health system or at selected practice locations.

Describe the capacity of your organization, its personnel, or contractors to communicate effectively and convey information in accordance with National Standards for Culturally and Linguistically Appropriate Services (CLAS) and Americans with Disabilities Act (ADA) Standards for Effective Communication in a manner and method that is easily understood by diverse audiences. This includes persons of limited English proficiency, those who are not literate, have low literacy skills, and individuals with disabilities. (see standards below)

- National CLAS Standards <https://thinkculturalhealth.hhs.gov/clas#:~:text=The%20National%20CLAS%20Standards%20are,culturally%20and%20linguistically%20appropriate%20services.>
- ADA Standards for Effective Communication <https://www.ada.gov/effective-comm.htm>

Note any personnel or equipment deficiencies that will need to be addressed in order to carry out this grant. Describe plans for hiring and training, as necessary. Delineate all personnel who will be directly involved in program activities; describe roles and hours per week each staff person will be involved in the project. Define the number

and type of health care professionals (e.g., physicians, nurse practitioners, etc.) currently providing prenatal services (see also Appendix E). Include the relationship between program staff members, staff members of the applicant agency, and other partners and agencies that will be working on this program. Agencies that offer prenatal services at more than one practice site may choose to implement the oral health integration program throughout the agency's health system or at selected practice locations. ODH's expectation for this program is that all prenatal care providers practicing at locations proposed for integration or oral health into prenatal care will participate in the program.

3. **Problem/[Need]:** Identify and describe the local health status concern(s) that will be addressed by the program. Only provide national and state data if local data is not available. The specific health status concerns that the program intends to address may be stated in terms of disparity (e.g., population, location), health status (e.g., morbidity and/or mortality) or health system (e.g., accessibility, availability, affordability, appropriateness, quality of health services) indicators. The indicators should be measurable in order to serve as baseline data upon which evaluation will be based.

Clearly identify the target population. Include geographic reference points (e.g., census tracts, census block groups, or ZIP codes) to specify where program activities are focused. Explicitly describe segments of the target population who experience a disproportionate burden of dental disease or who are at increased risk of dental disease. Provide information about geographic location of prenatal service providers if applicant is located in a higher need area, e.g., dental health professional shortage area (HPSA), Appalachia, census tracts with high SVI scores, or other area with limited dental resources.

Include a description of other agencies/organizations in your area also addressing this problem/need. In addition, describe networks for dental referrals in the service area where prenatal services are provided. A dental safety net or private practice dentist(s) used for the referral of prenatal clients with dental needs must accept Medicaid and provide a sliding fee scale or make other fee arrangements to ensure clients who have low incomes and are uninsured for dental care can receive dental care. Include letters of support from the dental referral network agencies.

Methodology: In narrative form, identify the program goals, **SMARTIE** process, impact, or outcome objectives and activities. Indicate how they will be evaluated to determine the level of success of the program. Describe how program activities are designed to address health disparities and/or health inequities identified in the proposal. Complete a program activities timeline to identify program objectives and activities and the start and completion dates and staff responsible for each. Please see Appendix D, Program Review Form for additional details regarding methodology and SMARTIE objectives.

- E. **Civil Rights Review Questionnaire — EEO Survey:** The Civil Rights Review Questionnaire Survey is a part of the Application Section of GMIS. Subrecipients must complete the questionnaire as part of the application process. This questionnaire is submitted online automatically with each application online.
- F. **Federal Funding Accountability and Transparency Act (FFATA):** All applicants applying for ODH grants are required to complete the FFATA reporting form in GMIS. Applicants must ensure that the information contained in SAM.gov, and the FFATA reporting form match. ODH will hold all payments if an applicant's information does not successfully upload into the federal system.

All new applicants for ODH grants are required to register in SAM.gov and submit the information in the grant application. For information about System for Award Management (SAM) go to <https://sam.gov/>.

Information on Federal Spending Transparency can be located at www.usaspending.gov.

Required by all applicants, the FFATA form is located on the GMIS Application page and must be completed to submit the application.

- G. Attachment(s):** Attachments are documents which are not part of the standard GMIS application but are deemed necessary to a given grant program. All attachments must clearly identify the authorized program name and program number. All attachments submitted in GMIS must be attached in the “Project Narratives” section and be in one of the following formats: PDF, Microsoft Word, or Microsoft Excel. Please see the GMIS bulletin board for instructions on how to submit attachments in GMIS. Attachments must be uploaded in GMIS by **4:00 p.m.** on or before **Monday, June 24, 2024**.

III APPENDICES

- A. Notice of Intent to Apply for Funding
- B. GMIS Training, User Access, Access Change or Deactivation
- C. C1 Deliverable – Objective Descriptions
C2 Deliverable – Objective Allocations
- D. Application Review Form
- E. Practice Site Locations and Prenatal Care Provider Information
- F. Budget Justification Examples
- G. Oral Health Integration Resources

Agency Head (Print Name)

Agency Head (Signature)

Please note that the agency head listed above must match the agency head listed in GMIS. Unless for a new agency, NOIAF's will not be accepted if the name doesn't match what is listed in GMIS. If the agency head needs to be updated in GMIS, please include a letter on the agency letterhead outlining the change. The new agency head's signature will be accepted with receipt of the update letter.

Does your agency have at least two staff members who currently have access to the ODH GMIS system? YES ☐ NO ☐

If yes, no further action is needed. If not, ODH Grants Services Unit staff will email the GMIS reference guide to the email addresses listed on the GMIS Access Request form.

The NOIAF must be accompanied by the agency's Proof of Non-Profit status (if applicable) and Proof of Liability Coverage (if applicable). Potential applicants and current subrecipients are required to set up and maintain their current supplier information in the State of Ohio Supplier Portal. This information includes, but is not limited to, Electronic Funds Transfer (EFT), 1099 Form and current address.

This information must be set-up and maintained in the following website: <http://supplier.ohio.gov/>.

Note: Subrecipients' future payments will be held if the agency receives a paper check due to the EFT information not being properly maintained in the supplier portal.

Forms are only required for NEW AGENCIES or if UPDATES are needed for current agencies. THE NOIAF AND REQUIRED FORMS MUST BE EMAILED TO Star Sawicki, Star.Sawicki@odh.ohio.gov BY **May 15, 2024**.

NOTE: NOIAF's will be considered late if any of the required forms listed above are not received by NEW AGENCIES by the due date. NOIAF's considered late will not be accepted.

Appendix B

This form must be submitted with the Notice of Intent to Apply for Funding Form for all new ODH applicants.

GMIS Training, User Access, Access Change or Deactivation Request

One request per person. Requests will only be honored when signed by your **Agency Head** or **Agency Financial Head** and complete. In addition, if a user leaves your agency, you are to notify ODH so that the account is rendered inactive and submit a form for the replacement. The user will receive his/her username and password via e-mail once the request is processed. *Refresher guides can be found on the ODH web site: <https://odh.ohio.gov/wps/portal/gov/odh/about-us/funding-opportunities/ODH-Grants/>. Appendix C1

Name of Subgrant Program: Integration of Oral Health into Prenatal Care Program

Budget Period: October 1, 2024 – September 30, 2025

of Deliverables: 2

Use Budget Justification Scenario: #3

X Deliverables Only

There are two different sets of deliverables depending on the applicant's previous experience with integrating oral health into prenatal services. Applicants with established programs should use the deliverables listed for Established Programs. New programs who have never conducted nor been funded through the Integration of Oral Health into Prenatal Care Program should use the deliverables listed for New Programs.

Established Programs

Deliverable — Objective 1: Oral Health Integration Implementation and Reporting

Maximum Funding for Deliverable 1 is \$45,000

There are three sub-deliverable objectives related to implementation and reporting for the competitive grant program for which the subrecipient will determine funding. Monthly reports (Objective 1A) will focus on oral health integration activities provided during patient visits at selected practice sites. Quarterly reports (Objective 1B) will focus on client demographics and the final report (Objective 1C) is a summary of the 12-month project.

Deliverable – Objective 1A: Monthly Program Progress and Data Reporting on Oral Health Integration Activities

Subrecipient will submit complete and accurate reports by the tenth of each month. Required reports are project progress and challenges (narrative) and monthly program activity data. At a minimum, the program activity data must include:

- Number of prenatal patient visits.
- Number of oral health assessments provided during prenatal visits.
- Number of prenatal visits in which oral health education was provided.
- Number of dental referrals made based on treatment urgency.
 - Routine (e.g., exam, cleaning, x-rays).
 - Early (needs to be seen within two to four weeks for suspected dental problems).
 - Urgent (needs to be seen immediately for pain and/or infection).

Monthly program data reports should reflect monthly data for each variable. Subrecipients should use the *Oral Health Integration into Prenatal Care Program Monthly Progress Report* form provided by ODH program consultant for monthly program activity data. Program narrative and data reports must be submitted for ODH approval via attachment in the Program Report section of GMIS.

Deliverable – Objective 1B: Quarterly Program Reporting

Subrecipient will submit patient-level data on a quarterly basis. Data includes demographic information, as well as process and outcome measures. The ODH will work with the subrecipient to develop reports, as needed. Data variables to be reported will be for unduplicated prenatal patients. Unduplicated prenatal patients should be counted once during the 12-month grant period regardless of the number of visits during the same period. **Please note:** An exception to the unduplicated patient count would be a prenatal patient that delivers a baby during the grant period and returns for another pregnancy during the same grant period. That patient should be counted

twice. Quarterly data must include:

- Total number of unduplicated prenatal patients.
- Number of prenatal patients by age.
- Number of prenatal patients by race.
- Number of prenatal patients by ethnicity.
- Number of prenatal patients by educational level.
- Number of prenatal patients by insurance type (e.g., private, Medicaid, uninsured, etc.).
- Number of prenatal patients by primary language (language spoken at home).
- Number of prenatal patients receiving dental care in response to a referral.
- Number of prenatal patients who have completed dental care in response to a referral.
- Number of prenatal patients who received oral assessment for the first time.
- Number of prenatal patients who received oral health education for the first time.

Demographic data reports must be submitted on a quarterly basis and are due by the tenth day of the month following each program quarter. Reports will be due Jan. 10, 2025, April 10, 2025, July 10, 2025, and Oct. 10, 2025.

Subrecipients should use the *Oral Health Integration into Prenatal Care Program Quarterly Progress Report* form provided by ODH program consultant for quarterly program activity data. Quarterly demographic data reports must reflect quarterly data and must be submitted for ODH approval via attachment in the Program Report section of GMIS.

Deliverable – Objective 1C: Final Program Report

By Thursday, Oct. 10, 2025, subrecipient will submit a final workplan progress update and narrative summarizing program outcomes, as well as successes, challenges, lessons learned, next steps, and plan for sustainability. Final program report must also include a summary of the findings and strategies used to improve completion of dental referrals for the Oral Health Integration Program Evaluation, Deliverable – Objective 2. Final program report must include an analysis of the impact funds used for Deliverable – Objective 2 had on the program objectives. Final program report must be submitted for ODH approval via attachment in the Program Report section of GMIS.

Deliverable — Objective 2: Oral Health Integration Program Evaluation

Maximum Funding for Deliverable – Objective 2 is \$5,000

To eliminate health disparities and health inequities, subrecipient will conduct an evaluation of the barriers their prenatal patients face when completing dental care. Subrecipients will use an approved survey instrument. Using the data received in response to the survey instrument, subrecipient will design outreach strategies to improve their prenatal patients' dental referral completion rates. There are two sub-deliverable objectives related to the Oral Health Integration Program Evaluation. Data collection and equipment (Objective 2A) and outreach strategies and incentives (Objective 2B). Subrecipients may request funding for one or both sub-deliverable objectives, as long as total funding for Deliverable – Objective 2 does not exceed \$5,000.

Deliverable – Objective 2A: Data Collection and Equipment

Subrecipients will distribute approved survey instruments to evaluate the barriers their prenatal patients encounter when completing dental care. Equipment to increase patient participation in the survey may be purchased. Allowable equipment includes, **and is limited to**, tablets such as iPads or similar to be used during prenatal appointments to distribute survey instruments. Subrecipient must submit a log of equipment purchased that includes the type of tablet, number purchased, unit cost, and total cost.

Deliverable – Objective 2B: Outreach Strategies and Incentives

Based on patient feedback received through the survey instruments, subrecipients will develop outreach strategies to improve their prenatal patients' dental referral completion rates. Incentives may be purchased as part of the

outreach strategies. Allowable incentives include, **and are limited to**, diapers, baby wipes, gift cards, and gas cards. Gift cards may not be in the form of prepaid credit cards, cash, or checks. Subrecipient must submit a log of incentives purchased and distributed that includes the type of incentives, number purchased, number distributed, unit cost, and total cost.

New Programs

Deliverable — Objective 1: Oral Health Integration Planning

Maximum Funding for Deliverable – Objective 1 is \$25,000

By March 31, 2025, all oral health integration planning activities must be completed and submitted for ODH approval via GMIS. There are nine required sub-deliverable objectives related to program planning for which the applicant agency will determine both funding and timelines.

Deliverable – Objective 1A: Oral Health Integration Program Coordinator

By January 1, 2025, subrecipient will employ or contract for one or more staff whose primary duty will be to coordinate all grant activities, including planning, program development, case management and reporting. This person must work a sufficient number of hours to accomplish the required grant planning, implementation and reporting activities. Once the position is filled, the subrecipient must submit the coordinator's position description, resume or curriculum vitae, hours of work and contact information to ODH. Documentation must be submitted via GMIS attachment; subrecipient should notify the ODH program manager via email once required information is submitted.

Deliverable – Objective 1B: Work Plan

By [insert date], subrecipient will develop and submit a comprehensive work plan for the 12-month grant period for which funding was received. The plan must include specific strategies and activities to accomplish ODH-defined objectives, staff responsible, timeline and how the strategy or activity will be evaluated. Work plan must be submitted for ODH approval via GMIS attachment; subrecipient should notify the ODH program manager via email once work plan is submitted.

Deliverable – Objective 1C: Provider Training

By [insert date], subrecipient will submit verification of completion of training modules specific to the prenatal population from the online [Smiles for Life: A National Oral Health Curriculum](#). At a minimum, all staff providing oral health assessment and education during prenatal visits in selected practice sites must complete modules on Pregnancy and Women's Oral Health, Child Oral Health, and The Oral Examination from the online curriculum. Verification must include names and credentials for each prenatal care provider, dates courses were completed and certificates of completion for each module completed. Training verification must be submitted for approval by ODH via GMIS attachment; subrecipient should notify the ODH program manager via email once training verification is submitted.

Deliverable – Objective 1D: Assessment Tools

By [insert date], subrecipient will develop or adapt tools to be used to identify women with oral health needs. Tools must include a standardized, brief and easy-to-use oral health assessment tool that consists of interview questions and a brief assessment of the mouth. Appendix G contains resources for tools that are already developed and available for adaptation. Assessment tools must be submitted for approval by ODH via GMIS attachment; subrecipient should notify the ODH program manager via email once assessment tools are submitted.

Deliverable – Objective 1E: Patient Education

By [insert date], subrecipient will develop or adapt materials to equip women with the information needed to maintain good oral health during the prenatal period. Education topics must include, but are not limited to:

- How a woman's oral health may affect the health of her baby.
- Common oral health issues during pregnancy.
- Oral hygiene practices.
- Caries risk transmission from mother to child.
- Dietary guidelines for good oral health during pregnancy.
- Safety of dental care during pregnancy.

One on one education of the prenatal clients must be provided as part of the oral health integration model. In addition, education concerning the oral health needs of infants and young children must also be provided as part of the education component of the grant. At a minimum, educational topics for infants and young children must include:

- Early childhood caries.
- Oral hygiene.
- Teething.
- Tooth eruption patterns.
- Dental visit by the baby's first birthday.

All topics for one-on-one discussion and timetable for topic discussions during the prenatal visits and supporting educational materials for prenatal clients must be submitted for approval by ODH via GMIS attachment; subrecipient should notify the ODH program manager via email once patient education documents are submitted.

Deliverable – Objective 1F: Tracking Integration Activities

By [insert date], subrecipient will develop a tracking plan or tool for assuring patients receive assessment, education, and case management during the prenatal visit. Integration of program data into the electronic health record is required. The tracking plan or tool must be submitted for approval by ODH via GMIS attachment; subrecipient should notify the ODH program manager via email once tracking plan or tool is submitted.

Deliverable 1G: Workflow Process Development

By [insert date], subrecipient will submit protocols and guidelines for workflow processes developed to integrate oral health into prenatal visits. Process must include plan for training prenatal care providers. Workflow process must be submitted for approval by ODH via GMIS attachment; subrecipient should notify the ODH program manager via email once workflow protocols and guidelines are submitted.

Deliverable 1H: Workflow Training for Staff

By [insert date], subrecipient will submit to ODH a report summarizing workflow training for prenatal care providers. This report must include dates of training and names of providers who received the training. The report must be submitted for approval by ODH via GMIS attachment; subrecipient should notify the ODH program manager via email once workflow training report is submitted.

Deliverable – Objective 1I: Reporting Tools

By [insert date], subrecipient will submit written methodology for extracting data from their electronic health record to complete the monthly and quarterly data reporting forms provided by ODH. The oral health integration implementation and reporting requirements are outlined in Deliverable – Objective 2. The written methodology should include where each reporting requirement will be located in the electronic health record and how it will be analyzed to complete the monthly and quarterly data reporting forms. The written methodology must be submitted for approval by ODH via GMIS attachment; subrecipient should notify the ODH program manager via email once the reporting tools are submitted.

Deliverable — Objective 2: Oral Health Integration Implementation and Reporting

Maximum Funding for Deliverable 2 is \$25,000

No later than April 1, 2025, subrecipient will begin the process of integrating oral health into prenatal visits. There are three required sub-deliverable objectives related to implementation and reporting for the remainder of the grant program and for which the subrecipient will determine funding. Subrecipients may begin implementation earlier than April 1, 2025 if all planning deliverables are complete and approved by ODH. Monthly reports (Objective 2A) will focus on oral health integration activities provided during patient visits at selected practice sites. Quarterly reports (Objective 2B) will focus on client demographics, and the final report (Objective 2C) is a summary of the 12-month project.

Deliverable – Objective 2A: Monthly Program Progress and Data Reporting on Oral Health Integration Activities

Subrecipient will submit complete and accurate reports by the 10th of each month. Required reports are project progress and challenges (narrative) and monthly program activity data. At a minimum, the program activity data must include:

- Number of prenatal patient visits.
- Number of oral health assessments provided during prenatal visits.
- Number of prenatal visits in which oral health education was provided.
- Number of dental referrals made based on treatment urgency.
 - Routine (e.g., exam, cleaning, x-rays).
 - Early (needs to be seen within 2-4 weeks for suspected dental problems).
 - Urgent (needs to be seen immediately for pain and/or infection).

Monthly program data reports should reflect monthly data for each variable. Subrecipients should use the *Oral Health Integration into Prenatal Care Program Monthly Progress Report* form provided by ODH program consultant for monthly program activity data. Program narrative and data reports must be submitted for ODH approval via attachment in the Program Report section of GMIS.

Deliverable – Objective 2B: Quarterly Program Reporting

Subrecipient will submit patient-level data on a quarterly basis. Data includes demographic information, as well as process and outcome measures. ODH will work with the subrecipient to develop reports, as needed. Data variables to be reported will be for unduplicated prenatal patients. Unduplicated prenatal patients should be counted once during the grant period regardless of the number of visits during the same period. **Please note:** An exception to the unduplicated patient count would be a prenatal patient that delivers a baby during the grant period and returns for another pregnancy during the same grant period. That patient should be counted twice. Quarterly data must include:

- Total number of unduplicated prenatal patients.
- Number of prenatal patients by age.
- Number of prenatal patients by race.
- Number of prenatal patients by ethnicity.
- Number of prenatal patients by educational level.
- Number of prenatal patients by insurance type (e.g., private, Medicaid, uninsured, etc.).
- Number of prenatal patients by primary language (language spoken at home).
- Number of prenatal patients receiving dental care in response to a referral.
- Number of prenatal patients who have completed dental care in response to a referral.
- Number of prenatal patients who received oral assessment for the first time.
- Number of prenatal patients who received oral health education for the first time.

Demographic data reports must be submitted on a quarterly basis and are due by the 10th day of the month following each grant quarter. Reports will be due on January 10, 2025, April 10, 2025, July 10, 2025, and October 10, 2025.

Subrecipients should use the *Oral Health Integration into Prenatal Care Program Quarterly Progress Report* form provided by ODH program consultant for quarterly program activity data. Quarterly demographic data reports must reflect quarterly data and must be submitted for ODH approval via attachment in the Program Report section of GMIS.

Deliverable – Objective 2C: Final Program Report

By October 10, 2025, subrecipient will submit a final workplan progress update and narrative summarizing program outcomes, as well as successes, challenges, lessons learned, next steps and a plan for sustainability. Final program report must be submitted for ODH approval via attachment in the Program Report section of GMIS.

APPENDIX F

BUDGET JUSTIFICATION EXAMPLE (Deliverable Funding Only)

NOTES:

- 1. Budget justification line items MUST be in the same order as in the GMIS budget.

OTHER DIRECT COSTS

Deliverable – Objectives

(PLEASE REFER TO SUBGRANT SOLICITATION FOR THE REQUIRED SCENARIO) (Note: Budget leverage cannot be used to move funding into or out of any Deliverables – Objective line item. Also, indirect cannot be charged against this line item.)

Scenario 1 (please refer to the solicitation to determine which scenario to use)

- Deliverable – Objective 1 \$10,000
Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.
- Deliverable – Objective 2 \$45,000
Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.
- Deliverable – Objective 3 \$75,000
Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.

Scenario 2 (please refer to the solicitation to determine which scenario to use)

- Deliverable – Objective 1
Franklin County \$40,000
Union County \$11,000
Madison County \$20,000
Licking County \$15,000
Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.
- Deliverable – Objective 2
Franklin County \$52,500
Union County \$9,500
Madison County \$12,500
Licking County \$16,500
Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.

| | |
|-----------------------------|----------|
| • Deliverable – Objective 3 | |
| Franklin County | \$78,750 |
| Union County | \$16,750 |
| Madison County | \$8,750 |
| Licking County | \$38,750 |

Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.

Scenario 3 (please refer to the solicitation to determine which scenario to use)

| | |
|-----------------------------|----------|
| • Deliverable – Objective 1 | |
| Objective A | \$10,000 |
| Objective B | \$20,000 |
| Objective C | \$30,000 |
| Objective D | \$40,000 |

Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.

| | |
|-----------------------------|----------|
| • Deliverable – Objective 2 | |
| Objective A | \$12,500 |
| Objective B | \$2,500 |
| Objective C | \$1,500 |
| Objective D | \$16,500 |

Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.

| | |
|-----------------------------|----------|
| • Deliverable – Objective 3 | |
| Objective A | \$28,750 |
| Objective B | \$8,750 |
| Objective C | \$1,750 |
| Objective D | \$38,050 |

Note: A brief description of how agency will accomplish meeting the deliverable may be required. Please refer to the solicitation to determine if this is required to be included in the budget justification. A detailed breakout of the deliverable budget is not required and should not be included in the budget justification.

| | |
|---------------------------------|----------------|
| Total Other Direct Costs | \$Total |
|---------------------------------|----------------|

| | |
|---------------------------|-----------|
| Budget Grand Total | \$ |
|---------------------------|-----------|

Notes:

1. The budget justification must be signed by the agency head listed in GMIS.
2. Budget revisions that do not include a signed budget justification by the agency head listed in GMIS will be disapproved.
3. Authorized representative certification language must also be included with agency head signature.

Subrecipient's authorized representative certifies the foregoing:

- Subrecipient understands and agrees that it must follow the federal cost principle that applies to its type of organization (2 CFR, Part 225; 2 CFR, Part 220; or, 2 CFR, Part 230).
- Sub-recipient's budgeted costs are reasonable, allowable and allocable under OGAPP and federal rules and regulations.
- The OGAPP and the rules and regulations have been read and are understood.
- Subrecipient understands and agrees that costs may be disallowed if deemed unallowable or in violation of OGAPP and federal rules and regulations.
- The appropriate programmatic and administrative personnel involved in this application are aware of agency policy in regard to subawards and are prepared to establish the necessary inter-institutional agreements consistent with those policies.
- Subrecipient agrees and understands that costs incurred in the fulfillment of the Deliverables must be allowable under OGAPP and federal rules and regulations to qualify for reimbursement.
